Market Analysis Report 2022-2028

Shopping Application Market Size, Share & Trends Analysis Report By Marketplace (Google Play Store, Apple iOS Store), By Region (North America, Europe, Asia Pacific, Central & South Africa, Middle East & Africa), And Segment Forecasts, 2022 - 2028

- The global shopping application market size was valued at USD 868.4 million in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 14.0% from 2022 to 2028.
- The growing demand for AI-based shopping apps in the U.S. is propelling the market growth.
- Moreover, the ease of shipment, along with cost-effective aftermarket service across the globe, is anticipated to refuel the market growth.
- The market had gained traction during the pandemic era owing to the rising demand for Google analytics app services. The growing demand to eliminate the operating cost from the suppliers of India is helping to boost the revenue.
- Rapidly growing demand for the best discount deal shopping apps across the globe is bolstering the market growth. These apps are majorly used to provide push notifications to know about the latest deals, arrivals, and exclusive offers. The integration of e-mail marketing in the U.S. is set to drive the market.

Some prominent players in the global shopping application market include:

- LimeRoad
- Lazada
- Tvisha Technologies
- ZALORA
- eBay
- Gearbest
- Tata Cliq
- Etsy
- Koovs
- AJIO

Segmentation, Targeting, & Positioning (STP Marketing): The Marketer's Guide

- Here's an example: I once created a marketing strategy for a fitness apparel brand. Rather than appeal to all fitness enthusiasts across the board, the brand wanted to target a specific segment within their target market: female yoga fans in their 30s and 40s.
- Ultimately, our marketing campaign was much more efficient and cost-effective since we knew our audience, where to reach them, and what messages would resonate.
- Segmentation, targeting, and positioning is an audience-focused rather than product-focused approach to marketing communications, which helps deliver more relevant messages to commercially appealing audiences.

STP marketing: The Segmentation, Targeting, Positioning model

Today, the Segmentation, Targeting and Positioning (STP marketing) model is a familiar strategic approach in modern marketing.

Conducting an STP Marketing Analysis

Sticky-ness:

-

Information A-symmetry:

-

What is our STP:

-

TAM:

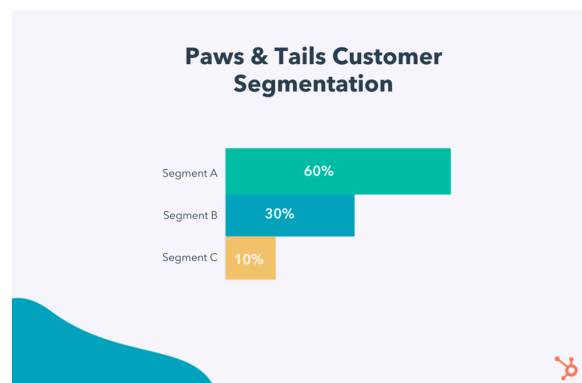

-

What Our App Does:

- One-Stop Shop for Life Style
- Problem: Non of the apps include exclusively clothing & accessories; specific and accurate results via AI; personalization importance
- Solution: personalization, new interphase, scraping instagram, facebook, etc. explore page before, Pinterest API, Web Scrapping, potentially linking account to chat GPT (I.E. linking pinterest account and then have chat GPT potential use that data), YOUR AI personal shopper
- Market Validation X Growing Market
- Market Size: ask chat
- Product X Business Model
- Key Differentiator: personalization, solving niche problem really well
- Market Adoption
- Competition: ShopApp, Rakuten
- User Benefits: Personalization, user experience,

Segmentation

Targeting

- Team: Rach, Skye
- Financials:
- Validation: Assumption that majority of shopping is done to look for something specific
- Focus marketing to boutique like store art first (commission fee), out of app - no money being made
- Start with TAM probably - look at Chat GPT

What to Note:

- Figure out who their customers are and why they like the app and also what they don't like about the app AKA Audience : Demo, Life Style, Behavior, Psychological
- Their customer insights
- What problem they are solving
- Their user's behaviors
- Also How are they segmenting the audience and within the segmentation the audience based on demographics, psychographics lifestyle, traits and behavior
- Pain Points, Things Customers Like

Shop App June 2024 Data

- www.similarweb.com

Shop.App

- Desktop 19.57%
- Mobile Web 80.43%

Marketing:

- Direct 54%, Email 0.14%, Referrals 3.70%, Social 4.10%, Organic 37.10 (Branded & Non-Branded words)

Top Referring industries:

- **Fashion and Apparel 53.27%**, Sports 8.43%, Beauty & Cosmetics 8.18%

Top Link Destinations :

- Shopify.com, Myshopify.com, google.com, shoppay.affirm

Social Traffic:

Demographics:

- Male: 44.48%, Female: 55.52%

Age Distribution:

- 18-24: 13.789%
- 25-34: 30.24%
- 35-44: 18.52%
- 45-54: 16.82%
- 55-64: 12.82%
- 65+ 7.82%

Audience Interests:

- Life Style - Fashion and Apparel 9.11%, Beauty and Cosmetics, Computers and Electronics, Games, Finance, Other 75.77%

Device Distribution:

- Desktop: 19.57%

- Twitter 32.22%, Youtube 20.27%, Reddit 17.52%
Facebook 16.96%

- Mobile Web: 80.43%

Domains Used:

- pay.shopfy.com
- checkout.shopify.com
- amazon.com
- [etsy.com](https://www.etsy.com)

Top Referring Industries

- Fashion and Apparel 53.27%

Engagement Overview:

- Monthly Visits: 95.80M
- Visit Duration: 00:02:21
- Pages/Visit: 2.49
- Bounce Rate: 45.39%
- Deduplicated Audience: Unknown

Similar sites:

- [Shopify.com](https://www.shopify.com)
- klaviyo.com
- betterup.com

Problem being fixed:

- Shop app still consolidates your orders and tracks them all in one place
- Shop will consider the brands you have already shopped with and recommend other products and related brands you might love

Other Notes:

- Every time you make a purchase, you earn 1% Shop Cash that you can use on future purchases from the app, and sometimes they have multiplier promotions that earn you even more.
- Generationally, 81% of millennials and 79% of Gen X report using retail apps more or about the same as last year, followed by 72% of both Gen Z and boomers. High household incomes lead in regular use of retail apps at 82%, followed by 79% of medium and 75% of low income levels.
- When consumers were asked what motivates them to opt in to receive brand communications on their smartphone, discounts, loyalty rewards and offers personalized to browsing behaviors, past purchases and current location saw the biggest gains over the prior year.
- The data suggests that inflation and the current economy is driving more deal-motivated behaviors from consumers

Rakuten Data April-June 2024

Other Notes

- There are lots of different categories of deals that you can shop from, including clothing, beauty products/services, electronics/home goods, grocery/grocery items and more. You can also use their Deal Finder tool if you want to narrow down which types of deals interest you most before searching through them all manually (e.g., "clothing" versus "electronics")
- Rakuten is a cashback website that pays you to shop online. You can earn cash back on your purchases at Rakuten's partner stores, including Amazon, Ulta Beauty and Bed Bath & Beyond. Rakuten works by finding the best coupons, deals and discounts for you
